EDUCATION LOOKBOOK

dancker ◦ 

Formaspace delivered a tailored solution to enhance the Harvard Graduate School of Design's studio environment, addressing challenges stemming from flawed previous installations. Our team provided over 450 customized products within a tight 3-week installation timeframe, including work desks, divider panels, and secure storage carts. By implementing fully welded connections, leveling feet, and on-site modifications, we ensured durability and functionality while correcting issues caused by seasonal climate changes and uneven floors. The result is an inviting and collaborative workspace that promotes creativity and innovation among students, featuring heavy-duty finishes, integrated storage solutions, and reinforced divider panels for improved aesthetics and practicality.

# Shelving for Art Students

Double-sided shelving units equipped with leveling casters enable art students to safely organize large-format print documents and projects on an island featuring deep storage shelves.

# Higher Education

## Skyline College – The Fab Lab

The Fab Lab is a production workshop and small-scale innovation hub equipped with digital fabrication machines and technologies for creating objects, tools, and electronics. Formaspace designed and built custom height-adjustable phenolic top workbenches to provide mobility and ergonomics for students studying in the Fab Lab.

## Brophy College Preparatory – Innovation Commons (Phenoix, AZ)

Brophy College Preparatory, a high school in Arizona, has been committed to providing rigorous academics, innovative technology, outreach and service, and opportunities for personal reflection through retreats since its establishment in 1928. Formaspace has equipped their library and innovation commons with a diverse range of workbench applications

# Primary & Secondary Education

## Thaden School

Thaden School, located in downtown Bentonville, Arkansas, is an independent high school renowned for its innovative approach to education. The school's 30-acre campus, including its master plan, buildings, and landscape, is the result of the Design Excellence Program, led by acclaimed architects Eskew+Dumez+Ripple of New Orleans and Marlon Blackwell Architects of Fayetteville, Arkansas. Formaspace contributed to the school's aesthetic by designing and manufacturing several multipurpose tables featuring industrial welded steel frames and butcher block tops, embodying the warm yet industrial aesthetic for which Formaspace is renowned.
